24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size and cost)*

This project consists of a fire station to serve the 82nd Airborne Division area, the new Womack Army Medical Center (WAMC) and family housing areas in the main cantonment area of Fort Bragg. This fire station is a one-company satellite that will house 3 trucks and 6 firefighters. The fire station contains a kitchen, sleeping area, administration area, storage area, day room, training room, and laundry for the firefighters who serve 24 hr shifts. Supporting facilities include electrical, heating/AC, basic landscaping and site development, information systems, security/scan system for AT/FP, and an area for fire truck basic maintenance and cleaning. Access for the handicapped will be provided in the administrative wing of the building. Knight Architects worked on this project including a design charrette, 100% design construction documents and construction administration.

Size: 7,014 SF
Cost: \$1,350,000

As-Built Photos

Project Relevance: In addition to completing the 100% design, Knight Architects performed construction phase services, including shop drawing review. Our team delivered all design files in the .dgn format, as mandated by the Savannah District Design Manual and the Ft. Bragg IDG. Additionally, this project represents the following specialized experience and technical competence criteria listed in the solicitation:

- Design of new facilities or utility systems of various types, sizes and complexities;
- Design of projects on Army installations;
- Sustainable design utilizing the LEED rating tools;
- Application of Anti-Terrorist/Force criteria;

Additionally, the project represents the following types of work identified in the solicitation; "...preparation of reports, studies, project planning, preparation of drawings..., cost estimates and other general A-E services for multi-disciplined new construction..."
